

EMERGE
EVOLVE
EMBRACE

YOUR PATH STARTS HERE

Coeur Assessment Center is a soft landing – a place where you can take refuge from mental-health issues, medical struggles and risk. We help young adults, like you, **emerge** with a more thorough understanding of self, **evolve** a better way of living and **embrace** who you are as you take the next steps.

WHAT WE DO

Rather than feeling like a bystander in your own life where others make all the decisions about your well-being, our team of highly-skilled, compassionate professionals collaborates with you throughout the entire assessment process. This means your personal goals, values, wellness and future as a whole are at the heart of the evaluation.

HOW WE DO IT

The therapeutic-assessment approach we use at Coeur gives you a sense of control over the process, while alleviating negative coping patterns. It also helps you define your personal values, discover your strengths and interests to build upon, while clarifying diagnosis and identifying any future challenges to address.

WHY COEUR

Our team's deep, personal passion for helping others find clarity and perspective by using their individual strengths, life experiences and clinical expertise helps you gain a better understanding of yourself as a whole. We believe this diversity supports a more thorough diagnosis and empowers you with the knowledge and tools to grow and thrive.

WHAT HAPPENS NEXT?

Educational consultants, referring professionals, parents or guardians, call or email us to discuss Coeur's availability, questions about the assessment process and clinical match.
